

Computer Science

Jaden Baptista

Submitted by Nathalie Guebels

Jaden Baptista has been an excellent student in the Computer Science department. Aside from his outstanding academic performance in Computer Science, he has contributed to our CS department in many ways. For the past two years, he has been a star for the Team Programming Club as a club officer and active member. He has been part of SBCC's winning team at the International Collegiate Programming Contest (ICPC) for 2 years in a row! He continues to be a tremendous help to many of his peers, providing tutoring for CS106 and leading presentations for the Team Programming Club.

Jaden's Words of Gratitude

I've learned so much these last two years and I would like to thank all the computer science professors for hosting an amazing and engaging program. Although my first year at SBCC was virtual, the department still actively connected me with internship and club opportunities. I would also like to express my gratitude for the Promise Program, which has allowed me to focus solely on schoolwork, club activities, and personal programming projects.
